DARK WEB MONITORING

Our Dark Web Monitoring service is designed to give you the insights you need to stay one step ahead of cybercriminals, by taking advantage of around-the-clock monitoring and alerts. You can also access additional features to improve user awareness by upgrading to our 'Better' or 'Best' packages. Check out our feature comparison below:

Dark Web Monitoring - Compare Features	GOOD	BETTER	BEST
Domain Monitoring: Real time monitoring of your domain, receive notifications in real time when breaches are detected. Access to the portal also allows you to delegate access to your team, generate reports and create tasklists.	✓	✓	✓
Monitoring of up to 5 Additional Email addresses: Alongside the domain being monitored, benefit from notifications if 5 further email addresses become compromised.	✓	✓	✓
Phishing Simulation Access: Full access to the Phishing Simulator package. Create your own Phishing campaigns using a populated toolkit of templates and send them to users on your domain. Alternatively create your own from scratch. Create reports and actions to help with the ongoing security development of your organisation.		✓	✓
Security Training & Awareness: Used either with the Phishing Simulator or as a standalone package. Send animated explainer videos to your users, educating and informing on various security topics. Training content also comes with a multiple choice quiz element. A training portal can also be created to help you build an ongoing support structure for your users.		✓	✓
Phishing Simulation - Monthly Managed Service: As above but as a fully managed service. We will work with you every month to create a campaign and push it out to your specified users. Reports and updates are all included in the service.			✓
Training & Awareness - Monthly Managed Service: As above but including the Training and Awareness elements into your monthly campaign.			✓
Penetration Testing: Bi-Annual, complete external Penetration Test conducted by CREST Certified Cyber Security Consultants.			✓

FIND OUT IF YOU'VE BEEN COMPROMISED. BOOK A 15-MINUTE DEMO WITH OUR TEAM AND GET YOUR FREE DARK WEB REPORT.
